

Bespoke Safety Solutions

Business Safe

“size doesn’t matter”

Did you know?

The Management of Health and Safety at Work Regulations 1999 requires that employers appoint one or more “competent persons” to assist them in complying with health and safety law which is relevant to their business.

Most companies however cannot justify a full time safety advisor and may not have the necessary skills in-house for an employee to act as their competent person, this is where Bespoke Safety Solutions can help you. For a fraction of the cost of employing additional resource you can tap into a wealth of knowledge and experience

The health check

It is important to understand the current and future needs of your business and so the first thing we would like to do is carry out a free initial “health check” on your business. By doing this we will identify:

- What systems you already have in place
- Area’s for improvement
- What you will need in the way of external assistance

What services can we offer you?

1. Act as your competent person
2. Telephone and email support when you need it throughout the year by someone who knows your business
3. Updates on health and safety legislation
4. Review existing method statements and risk assessments
5. Preparing and updating your company health and safety policy
6. Assistance with the completion of health and safety competency questionnaires and other documentation
7. Fire safety audits
8. An accident investigation service
9. Regular site audits
10. Assistance with sourcing training courses

So what is the cost?

We know one of the most important things is to have a good indication of the overall cost of our service and following the "health check" a menu of services and costs will be agreed with you. The fees charged for this service will start from as little as £50 plus VAT per month.
